

**"STEERING HAS NEVER
BEEN THIS EASY!"**

IntelliSteer[®] WIRELESS STEERING

STEERING HAS NEVER BEEN THIS EASY!

What if you could **STEER YOUR KICKER MOTOR** without having to worry about the tiller arm or a bulky connection kit to your main engine?

What if you could **FISH OR CRUISE** without having to continuously adjust your course from your main helm?

What if you could **DO ALL THIS WIRELESSLY**, with no cables to get in the way?

Intellisteer® boat remote steering offers a full range of products that are easy to install, easy on the wallet and make fishing and boating a whole lot easier and more fun!

KEY FEATURES:

- Models for control of kicker motor
- Models for both cable and hydraulic steering systems
- Wireless control module plus handheld pendant - steering in the palm of your hand
- Steer, fish and cruise from anywhere on the boat
- Easy DIY installation - no need for professional installer
- 2 Year limited warranty - purchase with confidence

WIRELESS CONTROLLER & RECEIVER

- Meets FCC standards
- Additional Handheld pendant and receiver can be paired in field
- Pendant and receiver auto-off in 30 minutes if no usage
- Over 1 Million control codes provide enhanced security

HANDHELD PENDANT

- Water resistant
- Includes lanyard

WIRELESS RECEIVER & MOTOR CONTROLLER

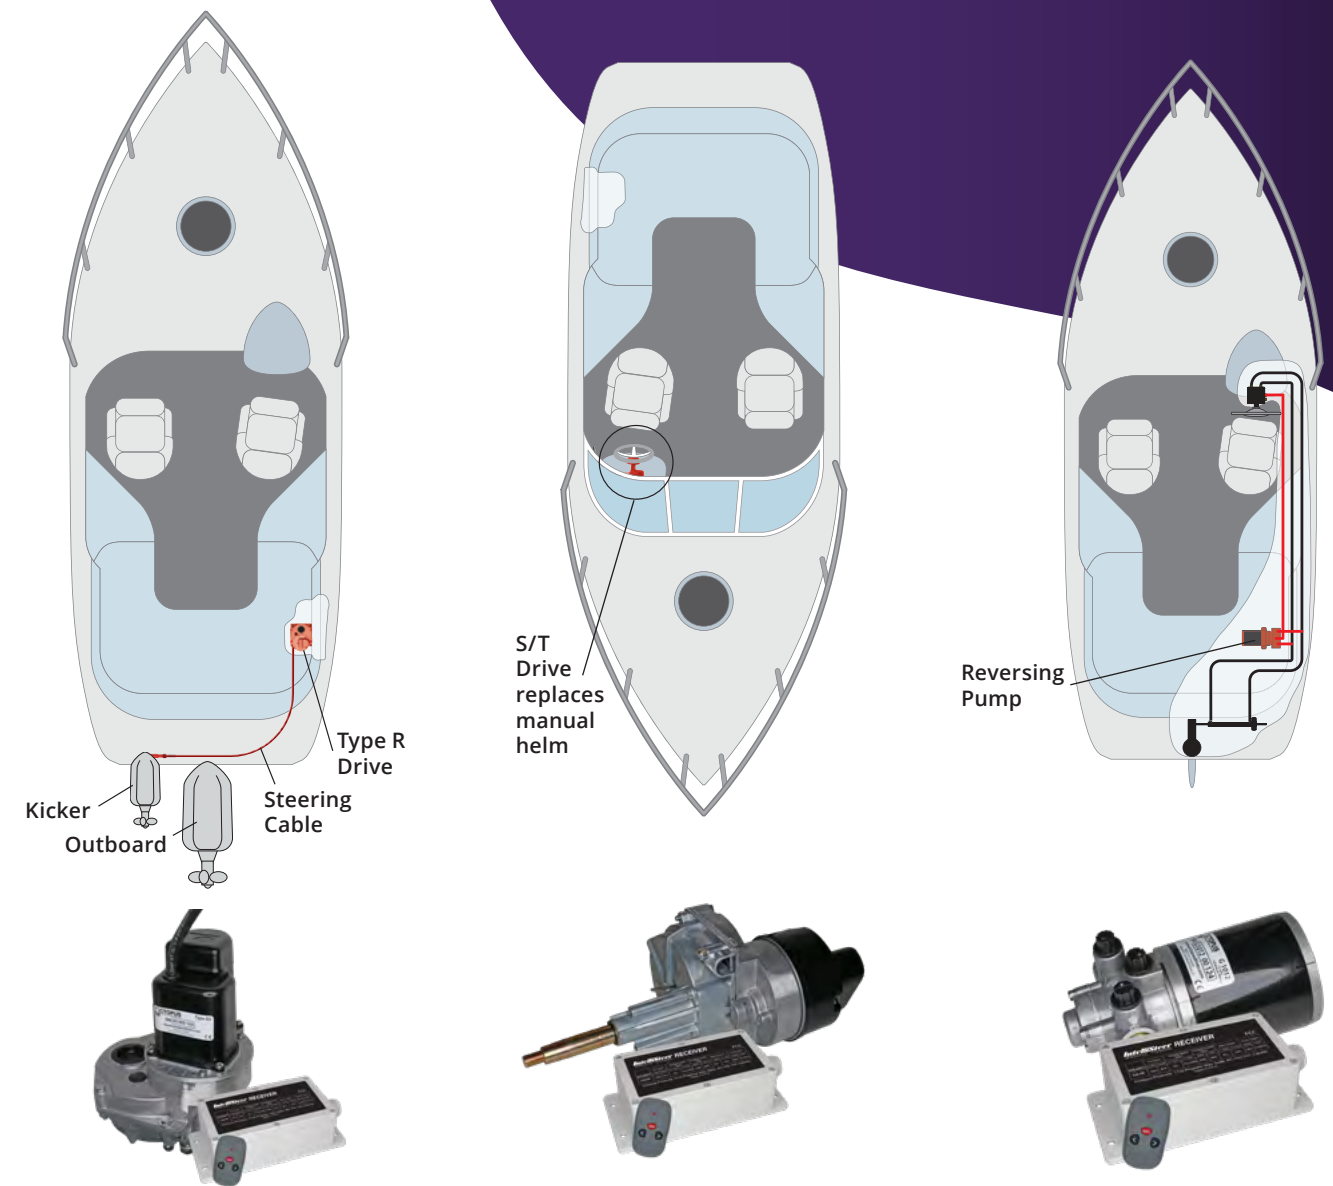

- Water resistant
- Motor drive capability up to 25A
- Overload protection
- Reverse polarity protection
- 12V DC nominal (9V min - 16V max operating range)
- Offers pass-through capability for Autopilot motor and clutch control circuits

TYPE A - FOR BOATS WITH AN EXISTING AUTOPILOT

- No need for additional drive units. The Intellisteer® Wireless Controller is designed to be wired between a Course Computer and Autopilot Drive
- When the Intellisteer® Wireless Controller is activated, it will disconnect the autopilot and provide wireless jog steering control from anywhere on the boat
- When the Intellisteer® Wireless Controller is turned off, the Autopilot will function as before
